ask questions of our spokespeople.

See page 5 for details.

Saturday 15 September

F2 Report of the Federal Conference Committee

Q1. Submitted by: Adam Bernard

Is it considered remarkable for FCC to select a motion for debate without having had sight of the policy paper which that motion endorses?

Q2. Submitted by: Theo Butt Philip

Why has the FCC limited questions to reports to just 25 words? What proportion of questions submitted to previous conferences were within this arbitrary and

F3 Report of the Federal Policy Committee

Q1. Submitted by: Mark Hall

Will you consider doing more to campaign for the rights of Leaseholders? Currently there are many people paying excessive charges and receiving a poor service from freeholders. This is the kind of issue missed by the two main parties.

Q2. Submitted by: Mark Hall

Should the Lib Dems policy on Criminal Justice differentiate more between violent and non-violent crime for example whilst calling for shorter or non-custodial sentences for non-violent crimes we could call for significantly longer sentences for the most violent offences which would bring the policy more into line with wider public opinion?

Q3. Submitted by: Clive Lever

Domestic abuse is a terrible crime that inflicts horrendous damage on the lives of women and they need far more support than they get. It is often forgotten that the crime seriously damages the lives of male victims, and support available to them falls even further short of the need. How does the party propose to ensure that in future, both female and male victims and their children can get access to an appropriate level of support when they need it?

Q4. Submitted by: Adam Bernard

Is it considered remarkable for a policy paper not to be supplied to FCC in time for consideration with the motion which endorses it?

Q5. Submitted by: Stewart Reddaway

Should the Working Group on Climate Change take into account carbon embedded in imports and exports?

F6 Establishing Real Freedom of Choice

The Federal Conference Committee has agreed to make the following drafting amendment to the motion:

- 1 *In 1 (line 48) after 'safe abortion' insert '; any changes to the legislation would incorporate the*
- 2 *existing 24 week term limit'.*

F8 Power for People and Communities

Amendment One

14 members

Mover: Michael Kilpatrick

Summation: Andrew Haldane

1 *Delete 1. d) and 1. e) (lines 42–47).*

2 *After 3. d) (line 82) add:*

3 Conference, however, rejects the specific proposals in the paper on a devolved tier within England.
4 Conference instead calls for the Federal Party to consult and engage with the English Regional
5 Parties to establish a process by which a regional tier of government across England may be
6 designed and implemented, on the basis that it should:

- 7 I. Be a fully inclusive process combining top-down oversight and locally-led design so as to
8 provide all parts of England with viable devolved government.
- 9 II. Allow a geographic makeup reflecting local opinion and identity, economic units and travel-to-
10 work areas.
- 11 III. Prevent first-come-first-served or self-selective devolution and allow no power of veto by
12 individual local authorities.
- 13 IV. Devolve substantial powers from Westminster uniformly as much as practicable to avoid a
14 multitude of 'West Lothian Questions'.
- 15 V. Operate with pluralistic, elected assemblies.

16 In the long run we will develop a model for a written constitution for the UK entrenching the
17 place of all devolved governments so that they cannot simply be swept away at the whim of
18 Central Government.

Amendment Two

South Gloucestershire

Mover: Claire Young

Summation: Louise Harris

Saturday 15 September

1 *After 2. f) (line 70) insert:*

- 2 g) Reforming the Combined Authorities so that they are more representative of their

4 alongside the elected Mayor, but instead have a membership where each party in the
5 relevant area is represented in proportion to its number of representatives on the
6 relevant councils.

F11 Reforming our Party's Disciplinary Processes

Amendment One

13 members

Mover: April Preston

Summation: Rebecca Plenderleith

1 *After 11. (line 127) add:*

- 2 12. Routes should be set up to adopt a system so that complainants can log reports anonymously
3 to the party, with the reports being accessible to the complainant, the Standards Officer, or
4 such person who may replace the Standards Officer in any future version of the Disciplinary
5 procedure. The Standards Officer must identify multiple reports about the same person or
6 persons, and should draw them to the attention of the Lead Adjudicator. The Lead Adjudicator
7 should then determine whether or not to advise complainants, so that they can consider
8 whether or not to waive their anonymity thus allowing further investigation.

Amendment Two

Young Liberals

Mover: Tara Copeland

Summation: Aria Dinakara Babu

- 1 *In 10. (line 120) after 'respondents' insert ', including referrals to counselling services where*

- 5 *In line 53 after '22.' insert: 'Any person whose membership is refused shall have a right of appeal,*
6 *which must be made in writing within 14 days of the applicant being advised of the refusal to*
7 *admit, and which shall be dealt with in accordance with the guidance published under Article 22'.*

Sunday 16 September

F13 Report of the Campaign for Gender Balance

Q1. Submitted by: Theo Butt Philip

What, if any, targets are the CGB currently working to in terms of numbers/proportion of women candidates approved/selected?

Q2. Submitted by: Theo Butt Philip

Other than waiting until after the next General Election and counting the number/proportion of female MPs, how is the CGB measuring its own success?

F15 Ending Discrimination in Mental Health Provision

The Federal Conference Committee has agreed to make the following drafting amendments to the motion:

- 1 *After line 38 insert:*
- 2 Conference welcomes the establishment of the Wessely Review into the Mental Health Act and the
- 3 opportunity it provides to reform mental health law.
- 4 *In lines 39–40, delete 'the Mental Health Act' and insert 'mental health law'.*

Amendment One

Kingston Borough

Mover: Abbie Llewelyn

Summation: To be announced

- 1 *Delete b) (lines 29–31) and insert:*
- 2 b) A person should not be forced to receive treatment unless they lack the capacity to make that

- 4 others.
- 5 *In d) (line 33), after 'capacity' insert 'or a medical assessment of risk,'.*
- 6 *Delete 1. and 2. (lines 41–49) and insert:*
- 7 1. The 'mental disorder' test for involuntary detention and treatment is replaced with a test
- 8 which combines an assessment of capacity and of whether the individual concerned poses a
- 9 serious risk of harm to themselves or others, so that people cannot be involuntarily detained
- 10 without good, medical reason.

4 *subject to individual assessment,'*
- 5 *In 5. c) (lines 114–116) after 'fairness and justice,' insert 'doing away with the culture of disbelief,'*
6 *and after 'reunification applications' insert 'and those who fled because of their religious or non-*
7 *religious beliefs, or who are at risk if returned because they have since converted to another faith*
8 *or belief.'*
- 9 *In 6. a) (line 118) delete 'the' and insert 'accountable'.*

Amendment one

Stockton, Wigan and Leigh & Makerfield

Mover: Suzanne Fletcher

3 UK's moral and legal obligation to help those seeking sanctuary from persecution and conflict.
- 4 *Delete iv) (lines 53–56) and insert:*
- 5 iv) A new policy for irregular migrants of "detention as last resort", using community alternatives
6 to detention such as more case-work in the community, thus allowing the closure of eight

- 16 d) Ensure an effective review and arbitration process to allow any decision apparently taken
17 outside the rules to be rectified before reaching appeal.
- 18 e) Improve the appeals process by transferring the cost from the Ministry of Justice to the
19 new dedicated unit for asylum applications, thereby incentivising getting it 'right first
20 time'.
- 21 f) Endorse The Refugees (Family Reunion) Bill and support restoring the arrangements
22 for legal aid for seekers of sanctuary that existed before The Legal Aid, Sentencing and
23 Punishment of Offenders (LASPO) Act 2012.

26 people from that region and to cover other conflict zones such as Myanmar.
- 27 h) Provide an effective mechanism to implement in full Section 67 of the Immigration Act

Sunday 16 September

28 2016 that commits the UK to welcoming unaccompanied refugee children, this scheme to

2 *policies and rebuilding people's trust in the system, and that this requires us to propose workable*
3 *solutions to the very real social, infrastructure, and financial problems caused by economic*
4 *change, government indifference, and underfunding, which are currently being widely blamed on*
5 *immigration and on immigrants'.*

Amendment Three

15 members

Mover: James Baillie

Summation: April Preston

1 *Delete 2. a) (lines 74–76) and insert:*

2 a) For spouse and legal partner settlements, end the crude and arbitrary practice of the
3 state splitting up families on grounds of income and permit families to stay together
4 without any form of means testing or prohibition on seeking support from the state.

Amendment Four

Hammersmith & Fulham

Mover: Irina Von Wiese

Summation: Jessie Venegas

1 *After 7. c) (line 135) add:*

2 8. To enable all eligible UK residents to acquire British citizenship and participate fully in our
3 democratic system, including the right to vote:

Sunday 16 September

- 4 a) Request the Home Office to conduct and publish an independent audit of the total
5 administrative cost of naturalisation of a foreign-born citizen.
6 b) Significantly reduce and align the fees for naturalisation with the cost of processing
7 applications.

Amendment Five

LGBT+ Liberal Democrats

Mover: Iain Donaldson

Summation: Jack Gilbert

1 *After line 8 insert:*

2 Conference notes with concern: the number of LGBT+ asylum claims failing at first stage due in
3 part to less than adequate legal advice in the preparation of the initial claims; the large number
4 of legal practices advertising immigration specialism with no expertise in relation to sexual
5 orientation or gender identity grounds.

6 *After D. (line 34) insert:*

- 7 E. Failing to offer asylum to people fleeing countries where their sexual orientation or gender
8 identification means that they risk domestic abuse, honour-based violence, imprisonment,
9 torture or execution, and worse still removing people at risk of persecution to such countries.
10 F. The system is riddled with humiliating, unfairly intrusive elements that Conservative Ministers
11 continue to defend despite the evidence being they are not necessary; for LGBT+ applicants,
12 there is a culture of disbelief about their sexuality, requiring applicants to make public
13 social media postings of a personal sexual nature, screen capture dating apps, and produce
14 submissions by sexual partners; there is also evidence that highly traumatised individuals,
15 including survivors of child sexual abuse, have been refused due to suppressed emotional
16 responses, with no reference to any of the extensive knowledge base in the area.

17 *After v) (line 61) insert:*

- 18 vi) The government to offer asylum to people fleeing countries where their sexual orientation
19 or gender identification means that they risk family-based hate-related domestic abuse,
20 honour-based violence, imprisonment, torture or execution, and stop removing people at risk
21 of any of these to such countries.
22 vii) Eradication of the presumption of disbelief about the sexuality or gender identity of LGBT+
23 applicants, specifically ending the practice in which officials appear to habitually state that an
24 applicant is not LGBT+ merely to justify an initial refusal, or refuse an LGBT+ applicant on the
25 basis that they could be discreet.

26 *After 5. c) (line 116) insert:*

- 27 d) The extension of the definition of a refugee in Article 1 of the Geneva Convention to
28 include persecution or oppression on the grounds of "sex, sexuality or gender", and in
29 the meantime to extend the Liberal Democrats definition of refugee in this way for all our
30 policies.

F20 Britain at the Heart of a Changing World

10 members

Mover: Elizabeth Payne

Summation: Jonathan Brown

- 1 *After line 16 insert:*
- 2 Conference reaffirms support for Liberal Democrat achievements in government, particularly
- 3 legislating for 0.7% of GNI to be spent on aid, and deplores attempts by the current government
- 4 to undermine this legacy by re-focusing aid away from alleviating extreme poverty and towards
- 5 promoting UK trade and investment and attempts to reduce migration.

Summation: Dave Chadwick

- 1 *In line 12 after 'people' insert 'individual liberties'.*

Amendment Three

32 members

Mover: Matt McLaren

Summation: Ruby Chow

F23 An Affordable, Secure Home for All

The Federal Conference Committee has agreed to make the following drafting amendments to the motion:

1 *After B. (line 6) insert:*

2 C. The commitment of the Liberal Democrats to slow climate change by reducing greenhouse
3 gas emissions.

4 *After VIII. (line 39) insert:*

5 IX. Many people are impoverished by the cost of heating damp or poorly insulated homes, with
6 inefficient fossil fuel and costly heating systems.

7 *After j) (line 72) insert:*

8 k. Taking action to improve domestic heating systems and the thermal properties of housing
9 would have the effect of reducing both poverty and greenhouse gas emissions.

10 l. The problems of fuel poverty and high per capita greenhouse gas emissions tend to be
11 greater in rural areas where mains gas is not available and where heating tends to be by more
12 expensive and more polluting oil fired systems, or in smaller homes by expensive electrical
13 resistive heating.

Monday 17 September

14 *After 9. (line 103) add:*

- 15 10. Higher and better enforced thermal standards for new, extended or refurbished housing,
16 including the requirement for renewable energy based heating or generating equipment for
17 properties not connected to the gas grid, and a requirement that social and private rental
18 houses have minimum energy rating of C, to be enforced on re-let or by 2024 if no change of
19 tenant.

Amendment One

10 members

Mover: Laura Coyle

Summation: Stewart Edge

1 *After 9. (line 103) add:*

- 2 10. Amend the Housing Act 1988 so as to increase the notice that landlords must give tenants
3 (after the initial minimum fixed term of 6 months) from 2 months to at least 6 months.

Amendment Two

St Ives

Mover: Andrew George

Summation: Juliet Line

1 *After 6. (line 90) insert:*

- 2 7. The introduction of a new use class in the Planning "Use Classes Order" for "Non-Permanent
3 Occupancy", to enable local communities to determine how many/what proportion of homes
4 may be second/holiday homes and to provide a stronger statutory definition on which to
5 apply appropriate tax, entitlement, voter registration and other policy to ensure a fair and
6 balanced management of the available local housing resource.

F24 Europe motion: Stopping Brexit

14 members

Mover: Rt Hon Tom Brake MP (Spokesperson on exiting the European Union and International Trade)

Summation: Wera Hobhouse MP (Spokesperson on Communities and Local Government)

1 Conference notes that:

- 2 A. The Conservative Government are making a mess of Brexit and Jeremy Corbyn's Labour Party
3 are helping them to deliver this destructive Brexit.
4 B. Liberal Democrats campaigned to remain in the EU during the 2016 referendum and have
5 since campaigned for the people to have the final say on the Brexit deal, including the option
6 to remain in the EU.
7 C. The Treasury have stated that a no-deal Brexit could require the UK to borrow £80 billion
8 more by 2033, the Conservative Government have begun releasing the 84 no-deal technical
9 notes, and the UK health sector are stockpiling medicines in case of a no-deal.
10 D. The Chequers plan is unworkable, rejected by both the EU and Conservative European
11 Research Group MPs.

Monday 17 September

- 12 E. A conclusive agreement has not yet been reached on many of the issues arising from the
13 Brexit referendum, including Government red lines, and both sides have stated that “nothing
14 is agreed until everything is agreed”.
- 15 F. Whilst the principle of a Northern Ireland backstop has been agreed, the UK’s plan to
16 temporarily avoid a hard border on the island of Ireland has not been agreed and there is still
17 no agreement on a long-term solution.
- 18 G. During the transition period, which is due to end in 2020, the UK will remain in the Single
19 Market and Customs Union.
- 20 H. The draft Withdrawal Agreement stipulated that EU citizens will have to apply for pre-settled
21 or settled status and if they fail to do so will be at risk of deportation; Irish citizens do not have
22 to apply but can if they choose to.
- 23 I. EU citizens, who are not Irish or Commonwealth citizens, living in the UK are excluded from
24 voting in UK General Elections or referendums and voting rights have been left outside the
25 scope of Brexit negotiations by the EU Commission.
- 26 J. The 2016 EU referendum gave no clear destination for Brexit, as the terms of the deal were
27 not yet known.

28 Conference believes that:

- 29 i) There is no deal that could be negotiated through the Article 50 process that could be more
30 beneficial than continued membership of the EU, leaving the EU would therefore be damaging
31 to the UK’s fundamental national interests.
- 32 ii) Given the assertion that “nothing is agreed until everything is agreed”, the risk of a no-deal
33 remains, which would mean the UK crashes out of the EU without any final Withdrawal
34 Agreement in place.
- 35 iii) The recent shifts in global affairs, including the USA withdrawing from the UNHRC, re-
36 emphasise the vital importance of UK membership of the EU and the values upon which the
37 EU was formed.
- 38 iv) The 2016 referendum and subsequent General Election had a severe impact on EU citizens
39 living in the UK, leaving them in a place of uncertainty; referendums and elections will also
40 disproportionately impact these citizens for decades to come.

41 Conference condemns the Conservative Government’s ideological, disastrous approach to Brexit
42 negotiations.

43 Conference urges the Labour Party to work in the national interest and reflect the views of its
44 members by campaigning for the people to have the final say on the Brexit deal and a chance to
45 exit from Brexit, challenging Jeremy Corbyn’s position as Leader if he refuses to do so too.

46 Conference further condemns the exclusion of EU citizens’ voices from political decisions that have
47 had an unprecedented impact upon their lives.

48 Conference reaffirms the Liberal Democrat commitment to:

- 49 a) Fight for an “exit from Brexit” referendum to be held once the outcome of the UK-EU
50 negotiations is known, for the public to choose between “the deal” or Britain remaining a full
51 member of the EU.
- 52 b) Campaign for Britain to remain a full and active member of the EU.
- 53 c) Enable all UK citizens living abroad to vote for MPs in separate overseas constituencies, and to
54 participate in UK referendums.
- 55 d) Introduce votes at 16 for all elections and referendums across the UK.

Monday 17 September

56 Conference calls for:

- 57 1. The Government to release full impact assessments of all options, prior to any meaningful
58 parliamentary vote, thereby demonstrating that there is no Brexit deal on offer that will
59 deliver the promises of the Leave campaign.
- 60 2. The Government to seek to extend Article 50 to avoid a catastrophic no-deal scenario.
- 61 3. The right to full participation in civic life, including the ability to stand for office or vote in UK
62 referendums and General Elections, to be extended to all EU citizens not already entitled to
63 vote as Irish or Commonwealth citizens, who have lived in the UK for five years or longer.
- 64 4. The UK Government to guarantee unilaterally in law, including in a no-deal scenario, the rights
65 of all EU citizens living in the UK, ringfencing the Withdrawal Agreements' Chapter on citizens'
66 rights.

Applicability: Federal.

The deadline for amendments to this motion is 13.00, Thursday 13 September; see page 6 of the Conference Agenda. Amendments selected for debate will be printed in Saturday's and Monday's Conference Daily. The deadline for requests for separate votes is 09.00 Sunday 16 September; see page 3 of the Conference Agenda.

3 concern in the constitution and profit allocation of businesses within a social market

6 inadequate for the 21st century.

7 *After 2. g) (line 95) insert:*

F33A Teacher Shortages

Cambridge and 13 members

Mover: Layla Moran MP (Spokesperson for Education)

Summation: Cllr Lucy Nethsingha

Tuesday 18 September

1 Conference notes with concern:

- 2 i) Research by the Education Policy Institute, published on 30th August, which highlights the
3 severe teacher shortages in the 2018-19 academic year.
- 4 ii) That the report highlights growing class sizes and an increase in the number of subjects being
5 taught by teachers without a relevant degree.
- 6 iii) That schools are seeing serious numbers of teachers resigning with many teachers only staying
7 in the profession for a few years, and are having difficulty in recruiting enough teachers to fill
8 essential posts.
- 9 iv) That teachers' pay is falling behind that of other graduate professions.
- 10 v) That the funding announced by the Government on 24th July for a pay-rise for teachers is
11 insufficient, and ignores many of the recommendations of the School Teachers' Review Body.
- 12 vi) That the Government have rejected calls to allow an equivalent pay-rise for staff in Colleges
- 13 vii) That the school funding crisis is far from being resolved, with schools £2bn worse off compared
14 with two years ago, and that the Institute for Fiscal Studies recently published an analysis which
15 showed the money per pupil fell by 8% in England and 5% in Wales between 2009/10 and
16 2017/18.

17 Conference believes that:

- 18 a) The teacher shortage crisis has been fuelled by a combination of pay-cuts, rising workloads and
19 stress levels.
- 20 b) Stress levels among teachers are far too high and that it is a contributing factor for many who
21 decide to leave the profession.
- 22 c) Pressure on school budgets also contributes to pressure on teachers, as headteachers worry
23 about how they will make ends meet, and workloads increase still further due to reductions in
24 support staff.
- 25 d) The pressure on teachers and growing workloads are largely due to a damaging culture of high-
26 stakes assessments and inspections in our schools.
- 27 e) More must be done to attract teachers to the education profession from maths, science and
28 other fields where there are particular shortages of teachers

29 Conference calls on the Government to:

- 30 1. Allocate new money to fund the recommendations of the School Teachers' Review Body in full,
31 using additional funding from the Treasury, rather than from already over-stretched school
32 budgets, as full funding is the only way to ensure that a pay rise (welcome though it is) does
33 not result in redundancies and an increase in stress and workload, thereby increasing the harm
34 done to schools and our education system.
- 35 2. Provide colleges with additional funding so that colleges can provide a pay rise to their teaching
36 staff which is equal to the pay rise for school teachers.
- 37 3. Invest to close the gap in school budgets, meaning that no school receives a real-terms per
38 pupil budget cut in the next year
- 39 4. Introduce a clear and properly funded entitlement to genuinely high-quality professional
40 development for all teachers – 25 hours per year by 2020, rising to the OECD average of 50
41 hours by 2025; this should include specific additional training for teachers who are required to
42 teach subjects which they are not trained in.
- 43 5. Implement reforms to school inspections and assessments, as set out in policy paper 128 *Every*
44 *Child Empowered*, to reduce the stress they place on both teachers and pupils.

Applicability: England only.

Tuesday 18 September

F33B Reducing Self-Harm

11 members

Mover: Rt Hon Norman Lamb MP

Summation: Tara Copeland

1 Conference notes with concern:

- 2 A. The Children's Society recent report that found of a survey of 11,000 children found one in six
3 children self-harmed. It found that 22% of girls and 9% of boys said they had self-harmed in the
4 last year.
- 5 B. That nearly 110,000 children aged 14 may have self-harmed across the UK during the same
6 12-month period, including 76,000 girls and 33,000 boys.
- 7 C. That almost half of 14-year-olds who said they had been attracted to people of the same
8 gender or both genders said they had self-harmed (46%); four in ten of these children had
9 shown signs of depression (38%) and three in ten had low well-being (30%).

10 Conference believes that:

- 11 i) Happiness with family relationships could be the best protection for children because it has the
12 biggest positive influence on children's overall well-being.
- 13 ii) Schools can play an important part in children's well-being.
- 14 iii) Issues like appearance, gender stereotypes and sexuality should be included in schools when
15 teaching about relationships and sex educations.
- 16 iv) Early support for vulnerable children and families in the community can help prevent mental
17 health problems from developing.

18 Conference reaffirms the Liberal Democrat commitment to:

- 19 a) Continuing the roll out of access and waiting time standards for children, young people and
20 adults.
- 21 b) A guarantee that people will not wait more than six weeks for therapy for depression or anxiety
22 and no young person will wait more than two weeks for treatment when they experience a first
23 episode of psychosis.
- 24 c) Ensuring that all front-line public service professionals, including in schools and universities,
25 receive better training in mental health.
- 26 d) Ensuring that LGBT+ inclusive mental health services receive funding and support.
- 27 e) Include in SRE teaching about sexual consent, LGBT+ relationships, and issues surrounding
28 explicit images and content.
- 29 f) That a fair proportion of all public funding for medical research should be focused on research
30 into mental ill-health.

31 Conference calls for:

- 32 1. Government to make it a requirement for all secondary schools and colleges to offer access to
33 a counsellor, regularly monitor children's well-being and ensure mental health support is taken
34 into account as part of school inspections.
- 35 2. Include when teaching about relationships and sex educations issues like appearance, gender
36 stereotypes and sexuality.
- 37 3. Ensure counsellors and those in mental health provision are trained in LGBT+ awareness
38 training.

Tuesday 18 September

- 39 4. Government to ensure all young people can access Children and Young People's Mental Health
40 Services up to the age of 25, rather than 18 or 16.
41 5. Additional funding for Childline to allow it to provide a 24-hour service that can respond to all
42 children and young people calling Childline with mental health issues.
43 6. Government to address the £2bn funding shortfall facing council children's services
44 departments by 2020.

Applicability: England only, except 5 (lines 41–42) which is Federal.

F35 Demand Better: Liberal Democrat Priorities for a Better Britain

The Federal Conference Committee has agreed to make the following drafting amendments to the motion:

- 1 *Delete lines 17–19 and insert:*
- 2 Conference believes that this represents decades of failure by both the Labour and Conservative
3 Parties, to break down barriers, to challenge the concentrations of power in society, and to lay the
4 foundations for a successful future.
- 5 *In 1. (line 36) after 'race' and insert 'or caste', and after 'religion' insert 'or belief'.*
- 6 *In 3. (line 48) after 'deprived backgrounds' insert 'and those with Special Educational Needs and
7 Disabilities'.*

Amendment One

23 members

Mover: James Baillie

Summation: Richard Flowers

- 1 *After 5. (line 67) insert:*
- 2 6. Demands a freer society, in which surveillance and other encroachments upon civil liberties
3 are curtailed, justice is accessible to all and focused on rehabilitation, and the state does not
4 criminalise people for victimless actions; in which the state does not make unjust intrusions
5 into people's lives to impose arbitrary lifestyle restrictions or ration service provision; in which
6 people can be confident that the government, law enforcement, and corporate entities alike
7 are fully and effectively accountable for their actions towards individuals; and in which the
8 UK remains a signatory of the European Convention on Human Rights and fully upholds the
9 Human Rights Act.
