

# **Birmingham 2010 Conference Consultation Session: Localism and Decentralisation**

Following the excellent response to the consultation on localism and decentralisation in Bournemouth, the policy working group will use this consultation session as a springboard for the General Election campaign.

We want to know how you will be communicating our four key messages locally, where you have examples of best practice and how you think these pledges feed in to the Party's localism agenda.

## **The Four Key Messages**

- 1. Fair taxes**
- 2. A fair start for all our children**
- 3. A fair and sustainable economy that creates jobs**
- 4. Fair, transparent and more local politics**

Join us in Hall 8b at 3pm on Friday for an informal discussion on the role of localism in series of break-out groups followed by a main discussion forum.
